📍 Noida, Uttar Pradesh

## Summary

Adaptable Software Engineer with a strong foundation in Data Structures and Algorithms and scalable system architecture. Proven track record of designing robust RESTful APIs, optimizing database performance, and delivering responsive user interfaces. Adept at transforming complex requirements into clean, maintainable code using modern full-stack technologies and agile methodologies to drive product innovation.

## Skills

**Languages:** JavaScript (ES6+), Core Java, C

**Frontend:** HTML5, CSS3, React.js, Redux Toolkit, Tailwind CSS, Responsive Design, REST API Integration

**Backend:** Node.js, Express.js, RESTful APIs, Socket.IO (Real-time), Redis (Caching), Pub/Sub Architectures, JWT, Role-Based Access Control

**Database:** MongoDB (Mongoose), MySQL, MongoDB Atlas

**Tools & AI IDEs:** Git (Version Control), GitHub, Docker, CI/CD, Postman, Jest, Render, Cloudinary, Claude Code, Windsurf, Cursor

**Fundamentals:** Data Structures & Algorithms (DSA), OOP, DBMS, Operating Systems, Computer Networking

## Experience

**Ilie Agaue Technologies Pvt. Ltd.**

Noida, UP

*Full Stack Developer Intern*

*Aug 2025 – Feb 2026*

- Engineered responsive UI components and integrated complex RESTful APIs using the MERN Stack, reducing page load time by 15%.
- Optimized MongoDB queries and schema designs using indexing and aggregation pipelines, improving data retrieval speed by 20%.
- Architected secure user authentication workflows utilizing JWT and Role-Based Access Control (RBAC), enhancing application security.
- Collaborated in an Agile/Scrum environment, performing code reviews and maintaining version control via Git/GitHub.

## Projects

**AI Agent Developer Platform**

*Aug 2025*

*React.js, Node.js, Socket.IO, Gemini API, WebContainer API*

- Architected a real-time collaborative coding environment allowing users to execute code directly in the browser.
- Integrated Gemini AI to provide context-aware code suggestions and automated task generation.
- Streamlined multi-user synchronization and state management using Socket.IO and Redux.

**CheckMyCar – Service Management System**

*Jun 2025*

*MERN Stack, Stripe API, Tailwind CSS*

- Developed a comprehensive service marketplace with separate dashboards for users, admins, and mechanics.
- Integrated Stripe API for secure payment processing and automated service booking confirmation.
- Implemented real-time service tracking and automated reminders to enhance user engagement.

## Education

**GL Bajaj Institute of Technology and Management**

Greater Noida, UP

*Master of Computer Applications*

*2023 – 2025*

**Dr. Bhimrao Ambedkar University**

Agra, UP

*Bachelor of Science (Mathematics)*

*2019 – 2022*

**Siddharth Public Inter College**

Khurja, UP

*Intermediate (P.C.M)*

*2017 – 2018*

**Adarsh Shishu Mandir Inter College**

Khurja, UP

*Matriculation (P.C.M)*

*2015 – 2016*

## Certifications

**Node.js Backend Development – Scaler**

**Full Stack Web Development (MERN) – Simplilearn**
